

Harrow Choral Society

Access to Harrow School Speech Room

Normal access to the Speech Room, and to the adjacent Memorial Hall which the choir uses for changing etc., is by some quite steep steps up from street level adjacent to the pedestrian crossing. These steps lead up directly to the open-air terrace which sits between the two buildings. Easier access is, however, available by entering the Memorial Hall from the other side (the south-facing entrance) and then walking through the building to the open-air terrace. To locate this south-facing entrance, approach the Speech Room from the south side and walk past Church Hill on your left. You will then notice a small courtyard on your left and the entrance to the Memorial Hall is off this courtyard and quite visible. The attached street view from Google maps shows it. Once inside the Memorial Hall, there are some steps to negotiate on the walk through to the open-air terrace, but ramps are available.
